Weavings
Futura Hair
Tissages
Tressen

Futura Hair is the first heat resistant fibre that is also fire-retardant. Wash it, condition it and dry it like your own hair. Your Futura Clip-In Extension is incredibly rich in variety. Change your appearance and look gorgeous without changing the extension. Today straight, tomorrow curls - the possibilities are unlimited. You can use hair-dryers, curling irons and flat irons.

Futura-cheveux est la première fibre résistante à la chaleur, jusqu'à 180° Celsius, qui est aussi réprouvée du feu. Maintenir laver et sécher les cheveux comme si c'était vos propres. Futura clip-in-extension est incroyablement polyvalent. Vous pouvez facilement modifier l'apparence sans avoir besoin de remplacer les extensions. Aujourd'hui, les cheveux raides et demain frisés, en fait, les possibilités sont infinies! Vous pouvez sécher, friser et même c'est possible de les lisser.

Futura Haar ist die erste hitzebeständige Faser bis 180° Celsius, die auch feuerfest ist. Waschen, pflegen und trocknen Sie das Haar als wäre es Ihr eigenes. Ihr Futura Clip-In Extension ist unglaublich vielseitig. Sie können das Aussehen ganz einfach ohne Austausch des Extensions ändern. Heute glattes Haar, morgen gekochtes - die Möglichkeiten sind unbegrenzt. Föhnen Sie das Haar trocken oder locken Sie es - sogar glätten ist möglich.

Fragen und Antworten zu Haarverlängerungen:

Kann eine Haarverlängerung mein eigenes Haar beschädigen?
Nicht, wenn es richtig gemacht worden ist. Haarverlängerungen geben Ihrem Haar, Zeit in Ruhe zu wachsen, unbelastet von chemischen Behandlungen oder Beschädigungen durch Heißluft-Behandlungen oder Austrocknung durch Gels, Sprays oder Schaumfestiger. Die Dream Hair Kanekalon-Braid-Faser führt nicht zum Haarbruch oder zu Beschädigungen in jeglicher Art und Weise.

Welche Haarverlängerungsmethode sollte man vermeiden?
Lassen Sie sich niemals Haarverlängerungen mit Klebern oder ähnlichen Befestigungsmethoden

machen. Viele Kleber verursachen Beschädigungen oder gar Haar-ausfall. Mit Kleber fixierte Dread-Lock-Verlängerungen müssen oft herausgeschnitten werden.

Wie lange halten Haarverlängerungen?
Die Haltbarkeit jeder, mit zusätzlichem Haar, entwickelte Frisur, hängt von der benutzten Faser ab (echt oder synthetisch). Echthaar tendiert zum Abrutschen von der Befestigung. Zudem verlieren sich alle Verlängerungen mit der Zeit. Von gut gemachten und lang anhaltenden Dream Hair Kanekalonfasern können Sie eine Haltbarkeit von ca. 3 Monaten erwarten.

Wie oft sollte ich meine Haar waschen, während ich Haarverlängerungen habe?
Kanekalon Haarverlängerungen können so oft wie eigenes Haar gewaschen und mit Haarkur behandelt werden, da das natürliche Kopfhautfett sich nicht negativ auf die mit Dream Hair Kanekalon gefertigten Verlängerungen auswirken wird. Im allgemeinen ist es nicht nötig die Verlängerungen öfter als 1x die Woche zu waschen, obwohl häufigeres Waschen kein Problem darstellt. Echthaarverlängerungen sollten nach Empfehlung der Stylistin gepflegt werden, da häufiges Shampooieren das Herausfallen der Haarteile erzeugen kann.

Welche Styling-Temperatur können Kanekalon-Haarverlängerungen aushalten?
Die Dream Hair Kanekalon-Faser kann ohne Bedenken in trockener oder nasser Hitze gelockt werden. Für beste Resultate sollten nachfolgende Zeiten und Temperaturen zum Strukturieren nicht überschritten werden.
- Locken mit heißem Wasser Maximum: 85°C, 185°F, 15 Sek.
- Locken/Strukturierung mit trockener Hitze (Lockenstab, u.a.) Maximum: 120°C, 248°F, 60 Sek.

WARNUNG: Vermeiden Sie den Kontakt mit der Haut, wenn Sie heißes Wasser oder heiße Metalloberflächen verwenden.

Questions and Answers About Hair Extensions:

Will extensions damage my natural hair?
Not if they are done properly! Extensions actually give your natural hair a rest - a chance to grow, recover from chemical processing and damage from heat styling as well as from drying effects of gels, sprays and mousse. And Dream Hair Super Braid fiber will not cut your own hair or damage it in any way.

What hair extensions techniques should be avoided?
Never let anyone put extensions in your hair with any glue or fixa-

tive. Many glues can cause hair damage or loss. Extensions attached with glue often have to be cut out from hair that has dried locked.

How long do extensions last?
The duration of any hairstyle created with extensions depends upon the fibers used (human hair or synthetic.) Human hair tends ultimately to "slip" and ease out of the hair. Although all extensions will loosen over time, you can expect a well-maintained style to last for up to three months when it is made with Dream Hair Super Braid fiber.

How often should I shampoo my hair while I have extensions?
Styles created with Dream Hair Super Braid extensions can be shampooed and conditioned as you would do your own hair. Because your scalp's natural oils won't adversely affect the appearance of hair extended with Dream Hair Super Braid, it generally is not necessary to wash your extensions more than every other week, although more frequent shampooing won't hurt. Human hair extensions

What styling temperature Dream

Hair Super Braid withstand?
Dream Hair Super Braid fiber can easily be curled or texturized in dry or wet heat. For best result in curling and texturizing, do not exceed these temperatures and times. When curling with hot water*, Maximum, 185°F (85°C) for 15 seconds. When curling/texturizing with dryheat* (curling rods, electric irons, tubes, etc.); Maximum, 248°F (120°C) for 60 seconds.

* Caution: Avoid burning skin when using hot water or hot metal surfaces.

Questions et réponses sur les extensions de cheveux:

Les extensions de cheveux peuvent-elles abîmer ma propre chevelure?
Non, à condition d'avoir été bien faites. Les extensions de cheveux donnent à votre chevelure le temps de pousser en toute tranquillité, sans souffrir des traitements chimiques ou des dégâts causés par les traitements à l'air chaud ou le dessèchement capillaire dû à l'utilisation de gels, de sprays ou de mousses coiffantes de fixation. La fibre Dream Hair Kanekalon-Braid ne favorise pas la formation de cheveux cassants et n'abîme pas les cheveux de quelque manière que ce soit.

Quelles sont les méthodes d'extension de cheveux qu'il faut éviter?
Ne vous faites jamais faire d'extensions de cheveux avec des

colles ou des procédés de fixation similaires. Nombreuses sont les colles qui abîment les cheveux et sont même à l'origine de chutes de cheveux. Il faut souvent couper, par la suite, les extensions dreadlock fixées avec de la colle.

Combien de temps les extensions de cheveux tiennent-elles?
La durée de chaque coiffure réalisée avec des mèches supplémentaires dépend de la fibre utilisée (naturelle ou synthétique). Les cheveux naturels ont tendance à glisser et à se détacher. Par ailleurs, toutes les extensions finissent par disparaître avec le temps. Avec les fibres Dream Hair Kanekalon bien faites et de grande résistance, les extensions peuvent durer environ 3 mois.

À quelle fréquence dois-je me laver les cheveux tant que j'ai

des extensions de cheveux?
Les extensions de cheveux Kanekalon peuvent être lavées aussi fréquemment que vos propres cheveux naturels, et soignées avec une cure réparatrice pour cheveux, attendu que le sébum naturel du cuir chevelu n'a aucun effet négatif sur les extensions réalisées avec Dream Hair Kanekalon. En règle générale, il n'est pas nécessaire de laver les extensions plus d'une fois par semaine, même si des lavages plus fréquents ne posent aucun problème. Il faut, selon l'avis des stylistes, soigner les extensions de cheveux, les lavages fréquents pouvant entraîner la chute des mèches.

Quelle température de stylisme les extensions de cheveux Kanekalon peuvent-elles supporter?

La fibre Dream Hair Kanekalon peut être frisée sans aucun problème à la chaleur sèche ou humide. Il convient, pour obtenir des résultats optimaux de coiffure, de ne pas dépasser les durées et les températures suivantes.

- Réalisation de boucles à l'eau très chaude Maximum: 85 degrés Celsius, 185 degrés Fahrenheit, durée de 15 secondes
- Réalisation de boucles / Structuration à la chaleur sèche (fer à friser entre autres) Maximum: 120 degrés Celsius, 248 degrés Fahrenheit, durée de 60 secondes.

ATTENTION: Éviter le contact avec la peau lorsque vous utilisez de l'eau très chaude ou des surfaces métalliques brûlantes.

Achtung

Dieses sind allgemeine Empfehlungen, um Echthaarverlängerungen zu färben.

Wir empfehlen, Echthaarverlängerungen von einem hellen in einen dunkleren Farbtönen zu färben. Besondere Vorsicht gilt dem Färben von dunklen Farbtönen in hellere Farbtöne. Es könnten Haarbruch oder sonstige Beschädigungen auftreten. Bleichen oder Aufhellung kann ebenso zur Beschädigung der Haarverlängerungen führen. Das Resultat könnte die Ablösung der Haare von der Tresse sein, die

Veränderung des Wellenmusters der Haare und Verfilzungen können entstehen. Wir können keine speziellen Haarfarben für Echthaar empfehlen, da diese Farbstoffe enthalten, die zu intensiv sind und zu Haarbruch und verschiedenen Haarbeschädigungen führen. Ebenso empfehlen wir keinerlei Dauerwellen-Anwendungen an dem von uns gelieferten Haar.

Attention

These are general recommendations for coloring extensions.

We recommend coloring extensions only from lighter colors to make darker colors. Extreme caution must be observed making dark colored extensions/hair to lighter colors since coloring from dark to light may cause breakage and damage to the extensions. Bleaching and lightening will also cause breakage or damage to the hair. The result may cause the hair to shed from the weft and the wave patterns to

change, causing severe matting on the hair/extensions. We do not recommend certain coloring products to be used on human hair. These products have color ingredients which are too strong and may cause the hair to break or severely damage the hair. We also do not recommend perming on certain light hairs we carry.

Attention

Il s'agit ici de recommandations générales sur la coloration des extensions de cheveux naturels.

Nous conseillons de teindre les extensions de cheveux naturels dans une couleur plus foncée. La coloration dans une couleur plus claire exige des précautions particulières, les cheveux pouvant devenir cassants ou présenter d'autres dommages. Les techniques de décoloration ou d'éclaircissement peuvent elles aussi abîmer les extensions de cheveux. Les cheveux risquent de se détacher de la tresse, ce qui pourrait

modifier le type d'ondulation des cheveux ou les emmêler. Nous ne pouvons pas recommander l'utilisation de colorations spéciales pour cheveux naturels, attendu que celles-ci contiennent des substances colorantes qui sont trop intenses et qui sont susceptibles d'entraîner la formation de cheveux cassants et d'abîmer les cheveux. Nous recommandons également de ne pas faire de permanentes sur les cheveux fournis par notre maison.

Die nachfolgenden Empfehlungen sind allgemeine Pflegehinweise für **RECHTSHAAR-VERLÄNGERUNGEN**. Bitte richten Sie sich danach, und fragen Sie zusätzlich Ihren Hairstylist nach speziellen Tipps zur Haarbehandlung, um nachfolgende Hinweise zu verbessern.

- Zunächst empfehlen wir, Ihr Haar mit einem Pflege-Shampoo und warmem Wasser zu waschen. Rückstände, die zu Verfilzungen führen können, werden so entfernt.
- Kontrollieren Sie nun das Haar auf eventuelle Strähnen, welche nicht fest genug angelegt sind, sollten befestigt werden. Das verhindert spätere Haarausfälle.

1) Wir empfehlen die Haare mindestens 1x pro Woche mit einem geeigneten Shampoo zu waschen.

2) Vor dem Shampooieren befeuchten Sie das Haar mit einer ausreichenden Menge Haarkur, und entwirren dann vorsichtig mit einem gebürsteten Kamm, (ein Kamm aus Metall ist einem Kamm aus Kunststoff vorzuziehen) an den Spitzen beginnend, nach oben bis zu den Befestigungsstellen. Der Kamm sollte immer auf die Haarspitzen gerichtet benutzt werden und es sollten immer nur kurze Abstände des Haars gekämmt werden.

3) Teilen Sie Ihr Haar in einzelne Strähnen und tragen Sie das Pflegeshampoo direkt auf. Anschließend spülen Sie mit einer geringen Menge Haarkur aus.

4) Von dem Haarsatz bis in die Spitzen gut unter schwach laufendem Wasser ausspülen.

5) Vermeiden Sie jegliches Massieren der Haare.

6) Sollten jedoch noch Verfilzungen bestehen, empfehlen wir ein Entfilzungspray.

7) Beim Föhnen nur leicht antupfen.

8) Beim Föhnen oder unter der Föhnhaube sollte niemals Hitze auf die empfindlichen Ansätze der Haarverlängerungen gelangen, da diese mit Klebstoff befestigt sind.

9) Wenn Sie lockiges Haar föhnen benutzen Sie einen Diffusor.

10) Beim Haare kämmen, sparen Sie immer die Ansatzstellen der Tressen aus.

11) Weitere Informationen um Verfilzungen zu vermeiden:

- wir empfehlen den Gebrauch von Satin-Bürstenborsten
- bürsten oder befestigen Sie die Haare unter Gebrauch von Handschuhen
- benutzen Sie Wasser nur in Verbindung mit einer Haarkur

12) Sollte das Haar verfilzt sein, empfehlen wir den Gebrauch von Kokosöl-Spray. Verfahren Sie wie in 2) beschrieben.

13) Eine schnelle Alternative zu 2) bis 5) ist die Anwendung einer Mischung aus Haarkur mit Wasser aus einer Spray-Flasche.

WIR GARANTIEREN NICHT, DAS ALLE EMPFEHLUNGEN FÜR ALLE ODER BESTIMMTE PERSONEN UND FÜR ALLE ODER BESTIMMTE UMSÄNDE VERBINDERICH SIND. DIESE INFORMATIONEN SIND ABSOLUT ALLGEMEINE EMPFEHLUNGEN.

The following are general recommendations for proper treatment of your **RECHTSHAAR-VERLÄNGERUNGEN** product. Please treat accordingly and ask your Hair Stylist for specific recommendations for hair-maintenance since their work may require you to modify those listed below.

Prior to putting on hair extensions, we recommend that you clean the hair using conditioning shampoo and warm water. This will also remove any remaining residue from the manufacturing process and helps to prevent tangling.

Prior to putting on wetted hair, double check for looseness and make corrections by sewing through or adding adhesive to the loose parts. This helps prevent shedding.

1) For the best maintenance results, we recommend cleaning your hair at least once a week using a light touch.

2) Before shampooing, wet the hair with a liberal amount of hair conditioner, and entangle the hair extensions gently with large-toothed combs (metal is preferable to plastic) from the ends up to the extension. The comb's direction should always be towards the ends, but using small motions.

3) bring sections of your hair together in bunches and apply conditioning shampoo directly on it. Rinse again with some conditioner.

4) Rinse thoroughly out from top to ends under moderately flowing water.

5) Avoid using a massaging action on the hair.

6) If further de-tangling is required, we recommend using a detangling spray.

7) If towel-drying your hair, pat dry only.

8) If curling or blow drying your hair, make sure you do not go over any areas where heat-sensitive adhesives have been used to place the extensions.

9) When blow drying curly hair, we recommend the use of a diffuser.

10) When combing out your hair, avoid going over or through the extension.

11) Further suggestions for avoiding tangling:

- we recommend the use of satin pillow cases.
- brushing or wrapping with cloth.
- do not use water only, use in combination with conditioner.

12) If the hair has tangled, we recommend the use of coconut oil spray using similar combing methods as described in #2.

13) Yes, we are superstitions. As a quick alternative to the instructions from 2) thru 5), we recommend the use of a solution of conditioner and water from a spray bottle.

WE DO NOT WARRANT THAT ANY OR ALL INSTRUCTIONS ARE APPLICABLE TO ANY OR ALL PEOPLE UNDER ANY OR ALL CONDITIONS. THIS INFORMATION IS GIVEN STRICTLY FOR GENERAL EDUCATION PURPOSES.

Les recommandations suivantes sont des conseils de soins généraux pour les **RECHTSHAAR-VERLÄNGERUNGEN**. Veuillez les respecter et demander des conseils supplémentaires à votre coiffeur sur le soin des cheveux afin d'améliorer les recommandations suivantes:

- Nous vous recommandons d'abord de vous laver les cheveux avec un shampooing soignant et à l'eau chaude, ce qui permet d'éliminer les résidus susceptibles d'emmêler les cheveux.
- Contrôlez maintenant la partie cheveux. Il convient de procéder à la fixation des mèches qui, éventuellement, ne sont pas suffisamment bien cousues, ou qui permet d'éviter une chute future des cheveux.

1) Nous recommandons de laver les cheveux au moins une fois par semaine avec un shampooing adapté.

2) Avant d'appliquer le shampooing, humidifiez les cheveux avec une quantité suffisante de care réparatrice pour cheveux et déterminez avec précision en utilisant un peigne à larges dents (préférez un peigne en métal à un peigne en matière plastique) en commençant par les pointes et en remontant vers le haut jusqu'aux points de fixation. Il est recommandé de toujours diriger le peigne sur les pointes des cheveux et de ne peigner les cheveux que par petits morceaux.

3) Divisez les cheveux en différentes mèches et appliquez directement le shampooing soignant avec une petite quantité de care réparatrice pour cheveux.

4) Rincez minutieusement depuis les racines jusqu'aux pointes sous un mince filet d'eau.

5) Évitez tout massage des cheveux.

6) Si les cheveux deviennent enroulés, nous vous conseillons d'utiliser un spray défilant.

7) Essayez les cheveux en tamponnant délicatement.

8) La chaleur ne doit jamais, lorsque vous séchez les cheveux avec un sèche-cheveux manuel ou sous un casque sèche-cheveux, toucher les points de fixation sensibles des extensions de cheveux, car elles sont fixées à la racine.

9) Si vous séchez au sèche-cheveux des cheveux bouclés, utilisez un diffuseur.

10) Évitez les points de fixation des tresses en vous coiffant.

11) Autres informations sur la manière d'éviter les cheveux emmêlés:

- Nous conseillons d'utiliser des taies d'oreillers en satin.
- Mettre des gants pour tresser ou attacher les cheveux.
- Utilisez exclusivement l'eau en association avec une care réparatrice pour cheveux.

12) En cas de cheveux emmêlés, nous conseillons d'utiliser le spray à l'huile de noix de coco et de procéder de la manière décrite au point 2).

13) Une alternative rapide aux points 2) à 5) consiste à appliquer, avec un flacon vaporisateur, un mélange de care réparatrice et d'eau.

NOUS NE POUVONS GARANTIR QUE TOUTES LES RECOMMANDATIONS SOIENT ADAPTÉES À TOUTES LES PERSONNES ET TOUTES LES SITUATIONS. CES INFORMATIONS SONT DES CONSEILS D'ORDRE STRICTEMENT GÉNÉRAL.
